

Grow High-Margin Services Revenue with AirMagnet

Using AirMagnet tools, Cisco Resellers can increase WLAN revenues with additional services and infrastructure sales

Wireless network deployment is often stalled or stopped due to poor planning and the inability to easily discover and resolve wireless specific problems. AirMagnet's leading toolset is the industry standard for wireless planning and troubleshooting. Through the use of these award winning and easy-to-use tools, you will be able to drive further sales of wireless network infrastructure to both new and existing customers.

AirMagnet is pleased to introduce the following exclusively priced bundle to all Cisco Authorized resellers:

AirMagnet Survey PRO - Enables Cisco Resellers to collect live signal, packet and spectrum data during site surveys. This allows them to simulate and measure network performance in the most scientific way possible—with the most accurate depiction of a real-world user experience—which ultimately results in a better performing network.

AirMagnet Laptop Analyzer PRO - Helps Cisco Resellers make sense of end-user complaints to quickly resolve performance problems, while automatically detecting security threats and other network vulnerabilities. Although compact, Laptop Analyzer PRO has many of the feature-rich qualities of a dedicated, policy-driven wireless LAN monitoring system.

NEW AirMagnet 802.11 a/b/g/n Wireless Adapter Card – this card offers increased reliability, and backward compatibility for a,b,g or n networks. Coupled with the Laptop/Survey bundles, AirMagnet gives the end user the “know-how” they need to accurately and efficiently design and deploy 802.11n networks.

For a limited time, AirMagnet is offering Cisco Resellers the 802.11n WLAN Product Suite with all three products bundled together for only \$3995.

(Retail for \$7840 when purchased separately).

- **Ingram SKU Q68473.** The free AirMagnet 802.11 a/b/g/n card will be included in the box with the purchase of this SKU.
- A promotional code of **AMP-1354-028** must accompany the purchase order
- These are Not-For-Resale Bundles. A limit of 2 per reseller, or reseller branched allowed
- Resellers should contact Ingram's licensing desk to purchase. Email: AirMagnet-Licensing@ingrammicro.com or by phone: (800)456-8000 67733
- This offer expires on July 31st , 2008
