Press Release:

MMF Releases New Cash Drawer Line

January 13, 2009

MMF Cash Drawer is setting new standards in cash drawer design with its just-released **Advantage Series Cash Drawers**. The new line is available in 5 sizes. It boasts a long list of features and options and is the result of an intensive collaborative design effort that relied heavily on input from leading VARs and retailers. Among those many features, according to MMF's VP and GM, Bill Youngquist, is a major increase in capacity and improvement in access to media and coin roll storage. "One of the most common requests we heard when designing this line was to provide more storage and make it easier to get to in order to reduce the time and resources required to replenish tills. The Advantage Global till has more storage space than any other till on the market and can be configured to meet individual needs." said Youngquist. "Another of our objectives for the Advantage Series is to provide our channel partners and end users with cash drawers that can easily adapt to the constantly evolving POS environment. This will enable them to take advantage of advances in POS technology without worrying about how their cash drawers will integrate."

Other notable design features the new line includes:

- Improved security with high security lock options
- Configurable Global tills for all major world currencies
- Removable coin cups for North American and European coins
- Heavy duty peripheral platforms for select sizes
- Five sizes:

18"W x 16.7"D x 4.6"H
17.4"W x 18.7"D x 4.6"H
18.8"W x 20"D x 4.6"H
18.8"W x 21"D x 4.6"H
20"W x 21"D x 4.6"H

- Upgradeable Interfaces reduce the cost of ownership and include
 1. Printer
 2. USB with Statistics and Serial Emulation
 3. USB with Statistics and 4 Port Hub Combo
 4. Multi-Serial Programmable for Added Security
(includes Statistics & 2 Drawer Open/Close Detection)
 5. Standard Serial
