

Cut the Cord

Get real-time
inventory data

The RF Advantage

- Update inventory data anywhere in your network with Wasp's InventoryControl RF Professional and RF Enterprise
- Get real-time visibility of stock levels, locations, and more
- Use existing 802.11 b/g network or Wasp's recommended RF hardware solution
- Eliminate the hassle of batch data collection and transfer
- Free, unlimited technical support for the life of the product
- Free Getting Started training

InventoryControl Conversation Starters:

The next time you're pitching InventoryControl to a customer, use these easy conversation starters to get you to the finish line.

- How do you currently track inventory?
- Do you have inaccurate inventory counts?
- Do your employees spend valuable work time looking for inventory?
- Do you need to view real-time inventory data?
- Do you ever have difficulty fulfilling customer orders?
