Norton 360™ Multi-Device

Ultimate protection for you and your devices

Norton 360™ Multi-Device combines powerful protection for your PC, Mac®, and Android™, iPhone®, and iPad® devices into a single, straightforward solution, so you can safely surf, shop, share, and socialize online, no matter which device you use. It protects against viruses, unsafe websites, and other threats. It backs up files stored on your PC and helps keep your PC running fast and trouble-free. And it lets you remotely lock and locate a lost or stolen mobile device to ensure your private information stays that way. Cloud-based management brings it all together, letting you easily control your protection for your various devices from one convenient place on the Web.

KEY BENEFITS
• Provides a single, integrated solution that protects you from threats and your mobile devices from loss
• Defends your PC from threats, safeguards your files from loss, and helps keep your PC running at its best
• Eliminates threats to your Mac
• Protects your Android, iPhone, and iPad devices, your personal information, and your privacy

WHAT’S NEW IN NORTON™ PRODUCT
• EXCLUSIVE! Norton Protection System: Uses five patented layers of protection to detect and eliminate threats more quickly and accurately than other technologies.
• EXCLUSIVE! Norton Management: Offers cloud-based controls that let you fix, update, renew, and install Norton 360 over the Internet with just a few clicks.
• NEW! Scam Insight: Reviews a website’s reputation and lets you know if it is safe to enter your personal information, so you can be confident it won’t be stolen by cybercriminals.
• NEW! Threat-Removal Layer: Targets and eliminates hard-to-remove threats less sophisticated products often miss.
• NEW! Always Up-To-Date Product Version: Automatically sends you important product and feature updates throughout the year. The latest version installs without your needing to do anything. You don’t even have to reboot.
• NEW! Contacts Backup and Restore: Lets you save your contacts from your iPhone, iPad, or Android device to the cloud and easily restore them on another device.
