

RACKSPACE® EMAIL & APPS

The Email & Apps division of Rackspace specializes in providing business class email, collaboration, and productivity applications. We offer reliable, secure, scalable solutions at a significant cost savings compared to the hardware, licensing, and maintenance expense of hosting these services in-house.

MICROSOFT® EXCHANGE

The #1 email platform for companies worldwide, Microsoft Exchange features advanced mobile functionality and full Outlook® integration for sharing calendars, tasks, and more.

RACKSPACE EMAIL

A less expensive, yet full-featured, alternative to Exchange accessible with standard POP or IMAP through Outlook, Thunderbird, or any email client as well as a secure, online Webmail interface that includes calendar, contacts, tasks, and notes.

HYBRID EMAIL

Combine Microsoft Exchange and Rackspace Email on the same domain for considerable savings over a full Exchange offering.

RACKSPACE CLOUD DRIVE

No more file server! Share files across teams or your organization. Online drives with on-demand storage allow you to automatically back up files, folders, or entire drives. Files can also be set to sync online and across desktops so that files are never out of date.

MICROSOFT SHAREPOINT®

Collaborate, share, and organize with sites that integrate with Microsoft Office and include document libraries, shared calendaring, team workspaces, workflow tools, and templates for a variety of other business tasks.

RACKSPACE SERVER BACKUP

Strengthen your disaster recovery plans with secure, off-site server backups. You can manage automatic backups and recoveries centrally from any computer. Secure encryption protects your data during transfer and storage.
