

INTERMEDIA PRODUCT OFFERINGS

A full suite of business communication and collaboration solutions

EXCHANGE 2010

The core of your new offering, hosted Microsoft Exchange, provides your customers with the following critical business email and collaboration tools:

- Email at their domain, accessible from Outlook, a web browser or a wireless device
- Shared calendars, contacts and tasks
- Public folders
- Antispam and antivirus defense. Protects your customers' Exchange servers against unwanted and unsafe emails.

MOBILITY

Provide your customers with always-synced wireless email on any PDA or smartphone, from any wireless carrier. We offer BlackBerry® hosting and ActiveSync hosting to any BlackBerry, iPhone, Android or almost any other PDA or smartphone.

SHAREPOINT

By integrating with hosted Exchange 2010 or hosted Exchange 2007, SharePoint gives your customers an instant, powerful company intranet. They can store documents online, check out files, run blogs and wikis and use single-sign-on for their Exchange mailbox and SharePoint portals.

Intermedia offers a full suite of products so you can offer your customers a secure, protected and always available email solution.

OFFICE COMMUNICATIONS SERVER (OCS) 2007

Hosted OCS 2007 provides a secure and professional alternative for instant messaging and unified communications. Users can see colleagues' availability status from a number of clients, search their automatically saved conversation and even share documents through PC-to-PC file transferring.

EMAIL COMPLIANCE

Intermedia offers comprehensive options for reselling email compliance tools:

- **MessageMirror.** Creates a copy of every message - incoming and outgoing - in a separate folder, for easy staff monitoring.
- **Compliant archiving.** Together with our compliance partners, we offer a comprehensive solution for corporate email compliance to help your customers comply with Sarbanes-Oxley, SEC, NASD and NYSE regulations.
- **Company disclaimer.** As legal and compliance risks grow, the company disclaimer feature is an effective way to help your customers enforce a company-wide email policy.
- **Policy-based Encrypted Email:** Easily encrypts emails based on company-wise rules and policies you set up and manage — all without disrupting day-to-day workflow..

With Intermedia's Private Label Exchange service, you can provide your customers with always-synced wireless email on any PDA or smartphone, from any wireless carrier.
