MAXIMIZE HOSTED SERVICE OFFERINGS TO CUSTOMERS

Package hosted service offerings with little investment and no upfront costs with Ingram Micro Seismic Hosted Business Productivity Suite powered by Intermedia.

Packaging Made Simple

With Business Productivity Suite (BPS), you can offer the benefits of enterprise e-mail and collaboration as a packaged service. Deliver Microsoft Exchange 2007, Office Communications Server (OCS) 2007 and Windows SharePoint Services 3.0 as a hosted service to your customers, with no deployment effort, zero maintenance and no investment up front. All these services are combined into one simple package, along with an award-winning, end-user control panel for your customers.

Business Productivity Suite Features

- **Microsoft Exchange 2007** — A powerful e-mail server and collaboration platform that enables the advanced sharing capabilities of Microsoft Outlook as the core of the BPS
- **Office Communications Server 2007** — Integrates with Exchange 2007 to add secure messaging and presence capabilities
- **Windows SharePoint Services 3.0** — Gives your customers more creative freedom to collaborate on the web by sharing files, storing documents online and posting on blogs and wikis
- **Control Panel** — Award-winning, web-based control panel manages the Business Productivity Suite account and settings
- **Enterprise Infrastructure** — E-mail and data hosted on one of the world's largest and most sophisticated infrastructures for Exchange, SharePoint and OCS 2007

Key Benefits

- **Better Collaboration** — Everyday tasks can be managed quickly and easily, including project management, meeting scheduling, and document editing and versioning.
- **Anywhere Access** — Give your customers the freedom to access e-mail and data from their desktop clients, web clients and mobile devices including BlackBerry smartphones.
- **No Capital Investment** — Deliver the entire service as a turnkey solution, without an investment in hardware or software, allowing customers to pay on a monthly per-user basis.
- **Flexibility** — Users can be easily added or removed to scale to your business needs.
- **Freedom of Choice** — Customers can choose the platforms and tools they need from Windows, Mac or Linux; and BlackBerry smartphone or iPhone.
- **Efficient Communications** — E-mail, voice and instant messaging provide optimal interaction among teams, onsite and offsite.
- **Simple Set up, Migration and Management** — Our award-winning control panel is a powerful web-based tool that gives you and your end-user customers the flexibility and control to manage the service, settings and data.
